STONE CHARACTERISTICS OUTSIDE PHOTO RANGE MAY VARY SIGNIFICANTLY

There are likely to be variations in consistency of colours and textures, appearance and quality in the finished product of the hardened concrete, as the raw ingredients are natural and subject to variations beyond our control. Whilst every effort has been made to match the colours in the preparation of this document, reproductive processes will alter the actual appearance in the concrete products to varying degrees.

The concrete samples shown are indicative only of the finished concrete product, and no guarantee of the colours or textures of the product is given or implied by this document.

PRODUCT NAME:

## BAHRAIN IVORY

White, grey and beige pastel colours abound in this small pebble set in an ivory base.

### Things you should know

Neutral grey beige tones will fit in just about anywhere to create a light and welcoming area.

Great as a driveway or pathway, the naturally rounded and smoothed shape of the small pebbles in this product is best for wet areas and pool surrounds. It provides grip whilst not being too harsh to walk on in bare feet.

This is a great choice that provides an understated style without taking the attention away from the key features of your property.

SPECIFICATION:

Vic Mix Bahrain Ivory 25MPa  
Exposed Aggregate Concrete
