STONE CHARACTERISTICS OUTSIDE PHOTO RANGE MAY VARY

There are likely to be variations in consistency of colours and textures, appearance and quality in the finished product of the hardened concrete, as the raw ingredients are natural and subject to variations beyond our control. Whilst every effort has been made to match the colours in the preparation of this document, reproductive processes will alter the actual appearance in the concrete products to varying degrees.

The concrete samples shown are indicative only of the finished concrete product, and no guarantee of the colours or textures of the product is given or implied by this document.

PRODUCT NAME:

CHEYENNE 46 IVORY

A calming blend of amber, orange, brown and white/orange quartz pebbles set in an Ivory base.

Things you should know

Warm sandy beige hues dominate the projected colour and deliver a finish that suits post-war period and art deco architecture.

Often a popular choice for alfresco entertaining areas. It offers a light neutral beige quality with a warm fleck of complex amber browns that generate interest at closer viewing.

A whiter (cleaner) base colour can be achieved with the inclusion of white pigment.

SPECIFICATION:

*Vic Mix Cheyenne 46 Ivory
25MPa Exposed Aggregate
Concrete*
