STONE CHARACTERISTICS OUTSIDE PHOTO RANGE MAY VARY

There are likely to be variations in consistency of colours and textures, appearance and quality in the finished product of the hardened concrete, as the raw ingredients are natural and subject to variations beyond our control. Whilst every effort has been made to match the colours in the preparation of this document, reproductive processes will alter the actual appearance in the concrete products to varying degrees.

The concrete samples shown are indicative only of the finished concrete product, and no guarantee of the colours or textures of the product is given or implied by this document.

PRODUCT NAME:

EMPEROR BRONZE DELTA 555 IVORY

A triple blend of crushed bronze granite, grey/cream pebbles and small traditional bluestone and set in an Ivory base.

Things you should know

One of our most popular products. All the right earth colours blended harmoniously together.

One of the key ingredients used in this product can at times be difficult to source. Availability is often restricted when demand exceeds the quarry's ability to supply. Please check with us before commencing your next project.
