STONE CHARACTERISTICS OUTSIDE PHOTO RANGE MAY VARY

There are likely to be variations in consistency of colours and textures, appearance and quality in the finished product of the hardened concrete, as the raw ingredients are natural and subject to variations beyond our control. Whilst every effort has been made to match the colours in the preparation of this document, reproductive processes will alter the actual appearance in the concrete products to varying degrees.

The concrete samples shown are indicative only of the finished concrete product, and no guarantee of the colours or textures of the product is given or implied by this document.

PRODUCT NAME:

## PANUBA 55 IVORY

White, grey and beige pastel colours abound in this pebble blend set in an ivory base.

### Things you should know

Neutral grey beige tones will fit in just about anywhere to create a light and welcoming area.

This product is very similar to Bahrain Ivory, but offset with larger pebbles to enhance the texture whilst maintaining the same overall look. The use of larger pebbles also helps to create larger gaps between the stones.

A good choice if you want large gaps to see a little more of the base colour.

Other similar products to look at are Bahrain Ivory and Monash 1 Ivory

SPECIFICATION:

Vic Mix PANUBA 55 IVORY  
25MPa Exposed Aggregate  
Concrete
