STONE CHARACTERISTICS OUTSIDE PHOTO RANGE MAY VARY

There are likely to be variations in consistency of colours and textures, appearance and quality in the finished product of the hardened concrete, as the raw ingredients are natural and subject to variations beyond our control. Whilst every effort has been made to match the colours in the preparation of this document, reproductive processes will alter the actual appearance in the concrete products to varying degrees.

The concrete samples shown are indicative only of the finished concrete product, and no guarantee of the colours or textures of the product is given or implied by this document.

PRODUCT NAME:

BALTIC DELTA 91 HALF BLACK

Orange, black and cream colours are defined by a dark black base projecting an overall dominant dark orange colour.

Things you should know

A unique blend of dark and light colours that create a great tie back to timber decks and structures. The darker elements of the product help with contrast and acceptability as a roadway or landscaped paving. A spattering of lighter coloured pebbles produces a highlight in the product that prevents it from appearing too dark and heavy.

SPECIFICATION:

*Vic Mix Baltic Delta 91 Half
Black
25MPa Exposed Aggregate Concrete*

ORDER CODE:

X_BALD91HB

REVISION: 27/12/2015
