STONE CHARACTERISTICS OUTSIDE PHOTO RANGE MAY VARY

There are likely to be variations in consistency of colours and textures, appearance and quality in the finished product of the hardened concrete, as the raw ingredients are natural and subject to variations beyond our control. Whilst every effort has been made to match the colours in the preparation of this document, reproductive processes will alter the actual appearance in the concrete products to varying degrees.

The concrete samples shown are indicative only of the finished concrete product, and no guarantee of the colours or textures of the product is given or implied by this document.

PRODUCT NAME:

## HIMALAYAS DELTA BLACK

A pure delta bluestone set in an ash and black pigment base produces the darkest projection of intense black.

### Things you should know

If you want the darkest pavement possible, then this is it!

This product is so dark, even the larger white sand grains become highlighted by the contrast created.

Always check availability of this product prior to committing to it for your next project. Demand for this stone often exceeds the quarry's ability to supply.

SPECIFICATION:

Vic Mix Himalayas Delta  
Black 25MPa Exposed  
Aggregate Concrete

ORDER CODE:

X\_HIMDBK

REVISION: 23/12/2016
