STONE CHARACTERISTICS OUTSIDE PHOTO RANGE MAY VARY

There are likely to be variations in consistency of colours and textures, appearance and quality in the finished product of the hardened concrete, as the raw ingredients are natural and subject to variations beyond our control. Whilst every effort has been made to match the colours in the preparation of this document, reproductive processes will alter the actual appearance in the concrete products to varying degrees.

The concrete samples shown are indicative only of the finished concrete product, and no guarantee of the colours or textures of the product is given or implied by this document.

PRODUCT NAME:

## MERIDIAN DELTA 82 ASH

An exposed aggregate classic. Small crushed bluestone blended with white/grey pebbles. Adjust the ratio of bluestone and pebble to control the darkness.

### Things you should know

The Meridian range of products allows you to control the darkness of the projected colour simply by adjusting the ratio of small bluestone to white/grey pebble.

As the Meridian # increases, so does the quantity of black stone in relation to white/grey pebble.

Meridian Delta 82 has twice the quantity of black stone as Meridian Delta 91. Check out Meridian 1 Ash to compare the difference.

SPECIFICATION:

Vic Mix Meridian Delta 82  
Ash 25MPa Exposed  
Aggregate Concrete

ORDER CODE:

X\_MERD82AS
