STONE CHARACTERISTICS OUTSIDE PHOTO RANGE MAY VARY

There are likely to be variations in consistency of colours and textures, appearance and quality in the finished product of the hardened concrete, as the raw ingredients are natural and subject to variations beyond our control. Whilst every effort has been made to match the colours in the preparation of this document, reproductive processes will alter the actual appearance in the concrete products to varying degrees.

The concrete samples shown are indicative only of the finished concrete product, and no guarantee of the colours or textures of the product is given or implied by this document.

PRODUCT NAME:

OCEANIC 82 HALF MIDDLE EARTH

Aqua green greys and earthy browns blended with large quartz cream pebbles and set in an ash and half middle earth base.

Things you should know

The projected colour of this product is grey green and well suited to limestone renders or paint colours with a distinct hue of green.

The use of middle earth pigment in the base helps to emphasise the green brown hues and the use of large white/cream pebbles keeps the overall colour light and slightly beige.

A variation on this theme is:
Oceanic 82 Ash

SPECIFICATION:

*Vic Mix Oceanic 82 Half
Middle Earth 25MPa Exposed
Aggregate Concrete*

ORDER CODE:

X_OCE82HM
