STONE CHARACTERISTICS OUTSIDE PHOTO RANGE MAY VARY

There are likely to be variations in consistency of colours and textures, appearance and quality in the finished product of the hardened concrete, as the raw ingredients are natural and subject to variations beyond our control. Whilst every effort has been made to match the colours in the preparation of this document, reproductive processes will alter the actual appearance in the concrete products to varying degrees.

The concrete samples shown are indicative only of the finished concrete product, and no guarantee of the colours or textures of the product is given or implied by this document.

PRODUCT NAME:

**COLORADO
DELTA 82
IVORY
Abrasive Blasted**

Rich brown and grey granite offset with small bluestone set in an Ivory base.

Things you should know

Warm beige and brown with small bluestone aggregate makes for distinctive contrast.

One of the key stones used in this product can at times be difficult to source. Availability is often restricted when demand exceeds the quarry's ability to supply. Please check with us before commencing your next project.

Abrasive Blasted surfaces offer a gentler texture over conventional Exposed Aggregate. The tactile experience is best described as irregular and smooth. Bare feet will love the touch of this finish.

SPECIFICATION:

Vic Mix Colorado Delta 82
Ivory
25MPa Abrasive Blasted Concrete

ORDER CODE:

W_COLD82IV

REVISION: 23/12/2015
